## IMPACT SURVEY 2022 IN UK

The economic impact (net wellbeing uplifts) of Tempo Time Credits (to the 10,712 volunteers earning them) is estimated at £16.6m (2019 prices). (Externally reviewed process)

69% of the community organisations that use Tempo Time Credits value their ability to recruit and retain volunteers This is estimated to have saved the 1,100 organisations using Tempo Time Credits £167,400 in the last year.

# VOLUNTEERING ACTIVITY

## Volunteers Self Identified as having a Limiting Condition

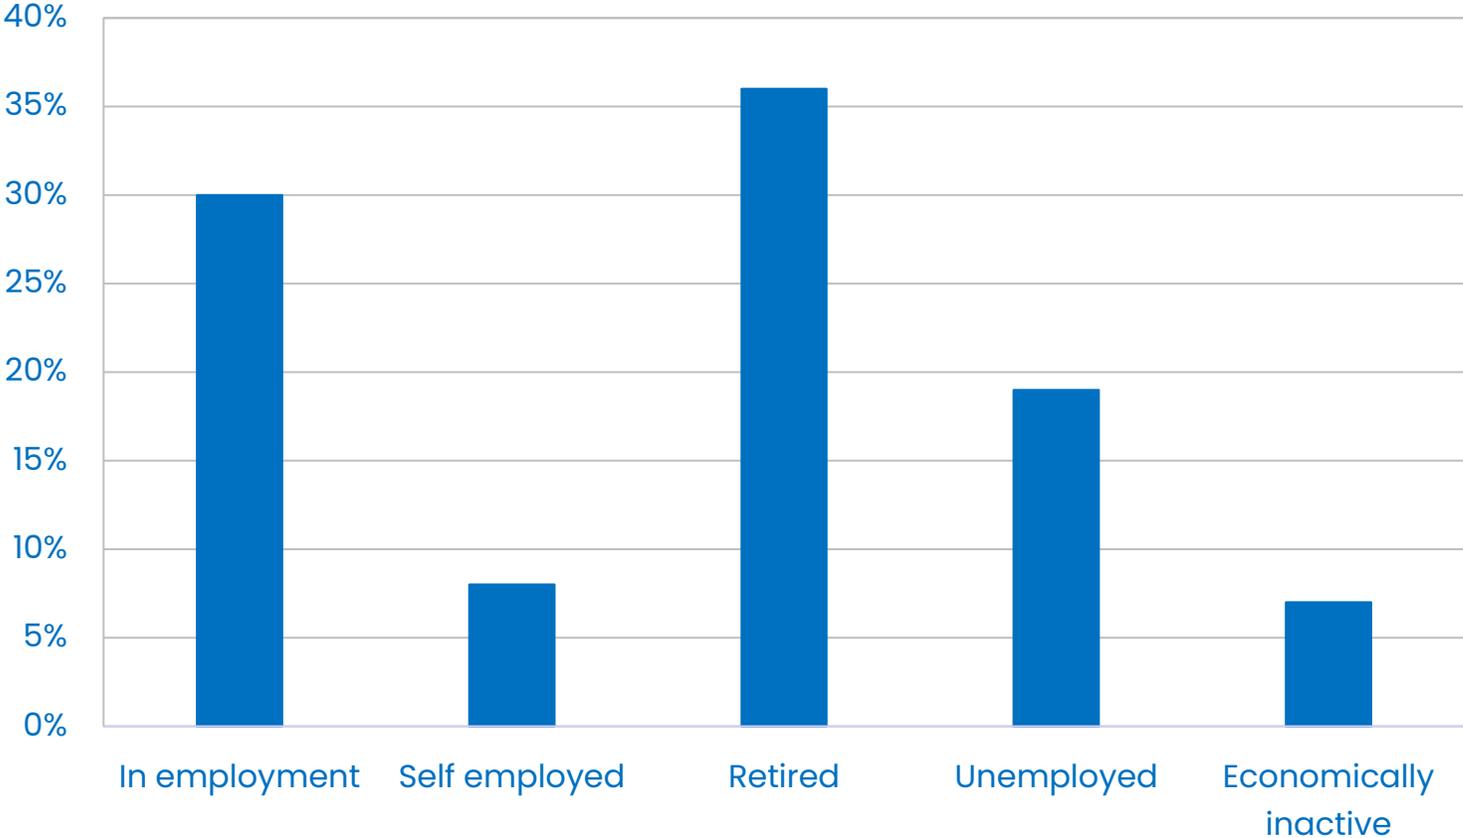

30% of Tempo Time Credit volunteers have some form of limiting condition.

23% of those in the NCVO survey 2019 had some form of limiting condition.

# VOLUNTEERING ACTIVITY

## Economic Position of Volunteers

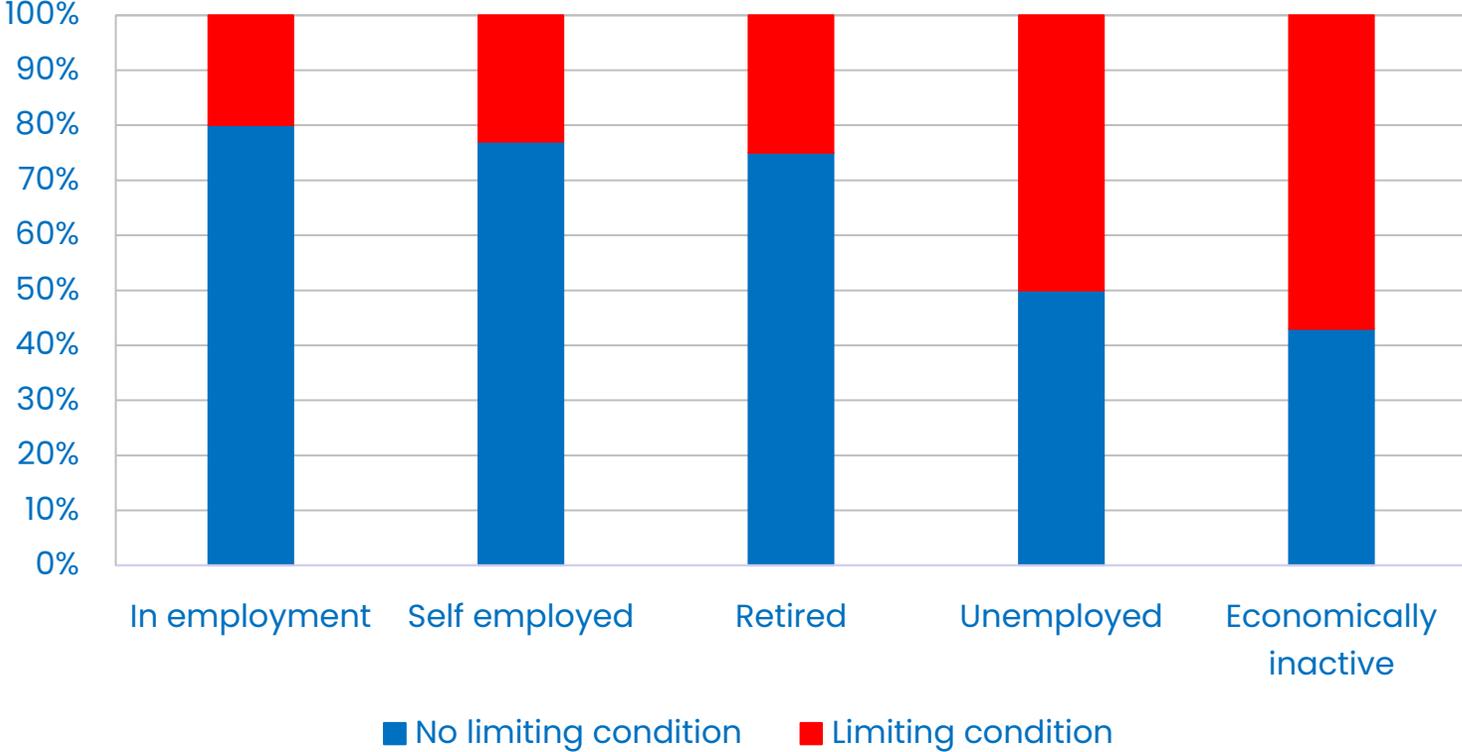

Tempo Time Credit volunteers come from a diverse variety of economic backgrounds.

62% of those in the NCVO survey 2019 were in employment/self employment.

It also reflects the age profile, with 36% above the typical retirement age.

# VOLUNTEERING ACTIVITY

## Limiting Condition and Economic Position of Volunteers

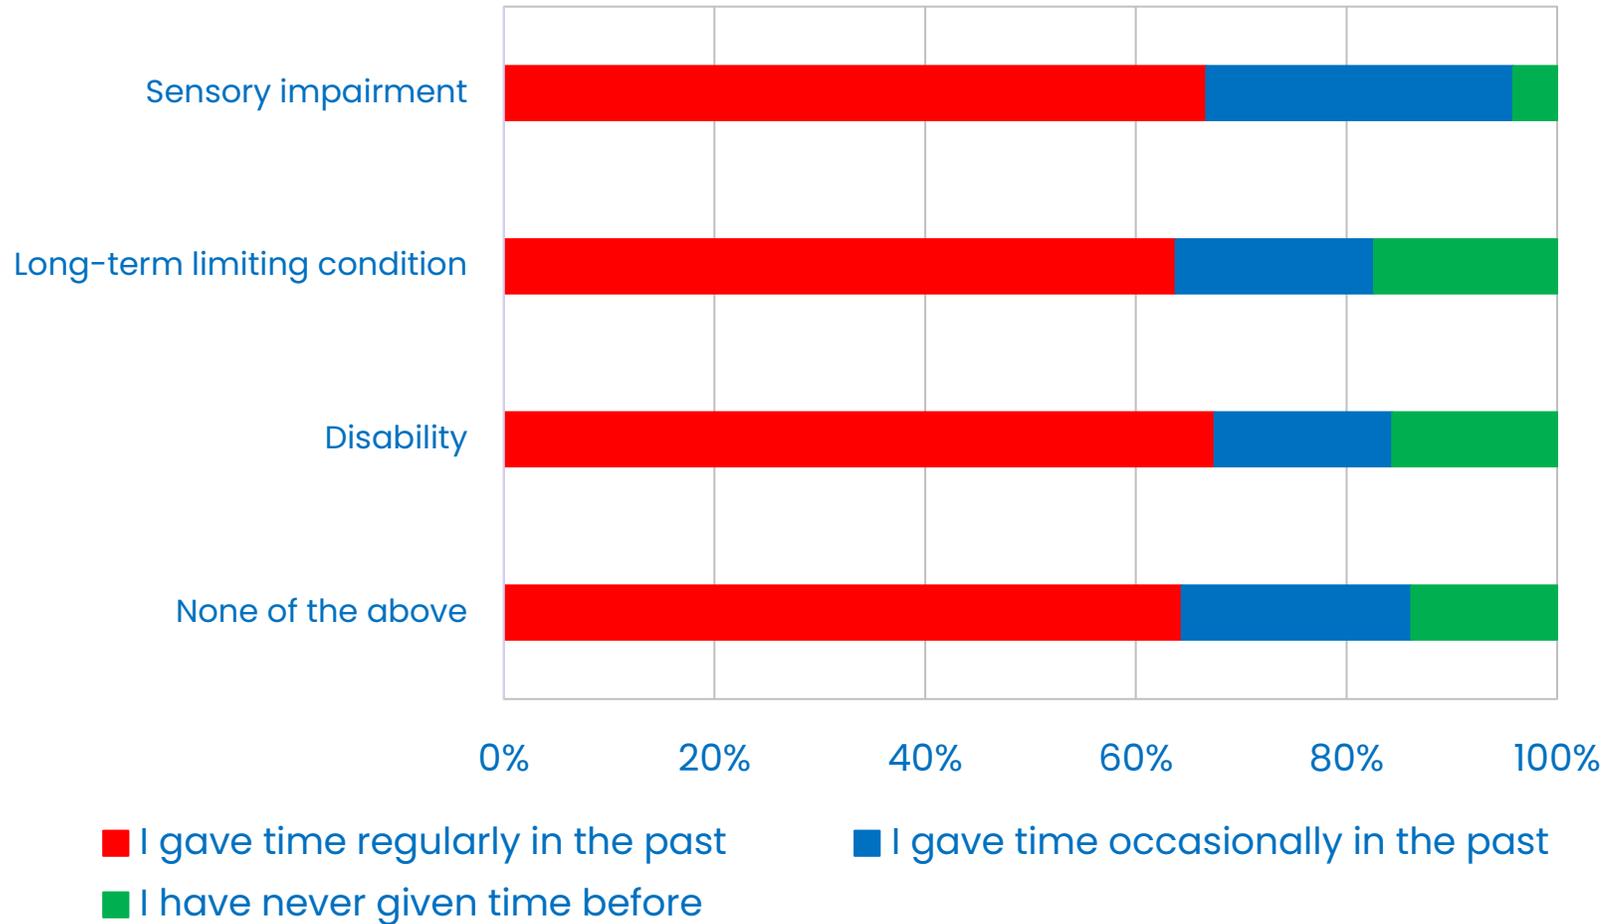

Sensory, physical and mental health conditions that are limiting are concentrated among those volunteers who are unemployed and economically inactive.

This presents these people with multiple disadvantages.

# IMPACT IN UK

## Limiting condition and volunteering history

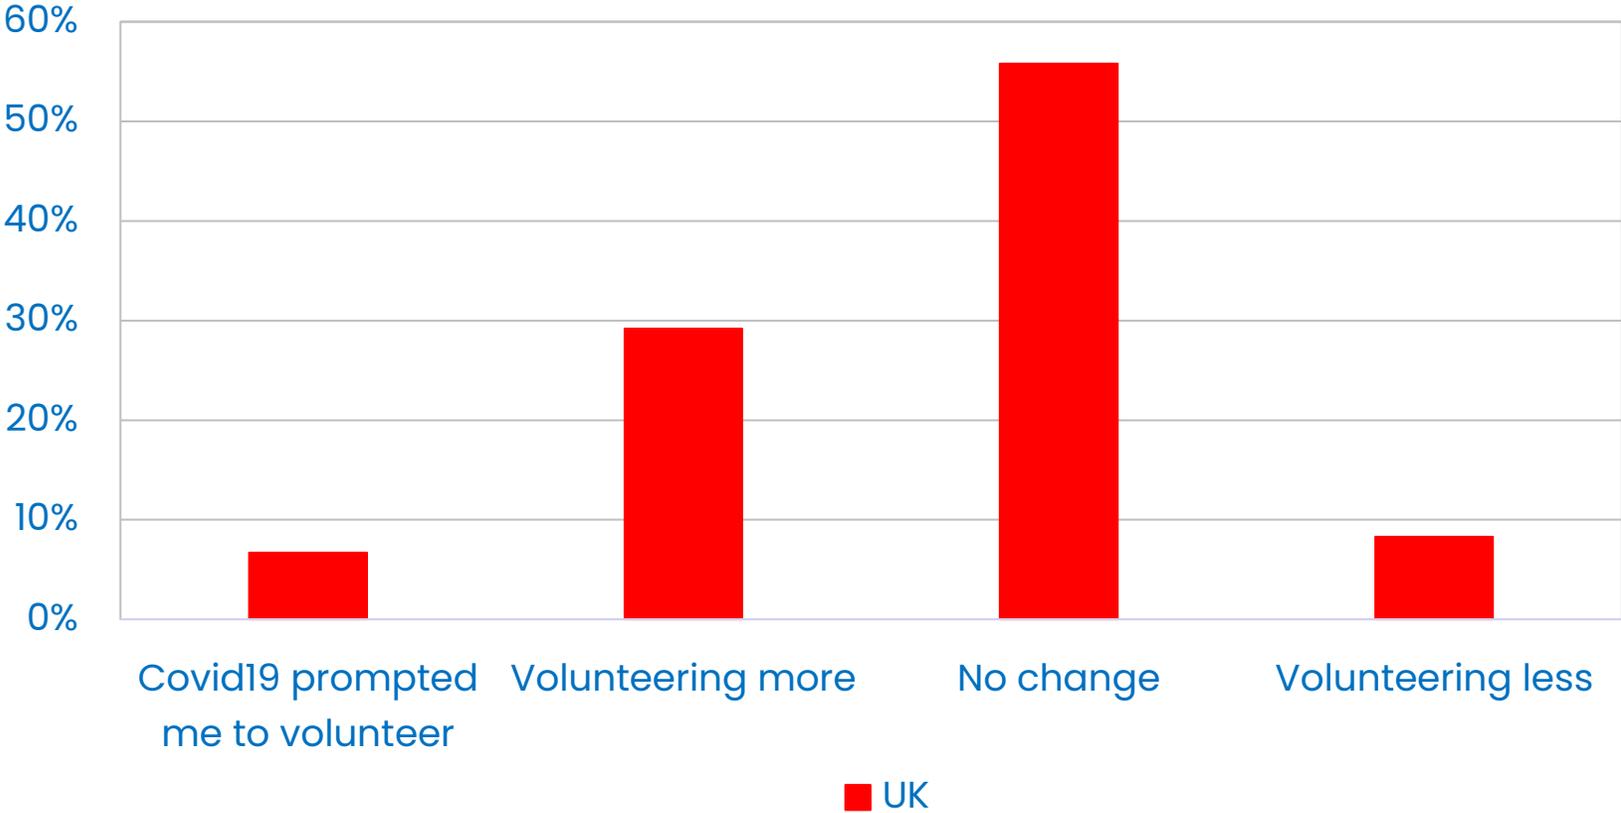

Those with a long term limiting illness and who have a disability are the most likely to be new volunteers.

Those with a sensory impairment are the least likely to be new to volunteering.

# VOLUNTEERING ACTIVITY

## Covid Impact on Volunteering Propensity

COVID-19 had a positive impact on volunteering. 36% of volunteers stated they had started (7%) or increased (29%) their volunteering in response to the pandemic.

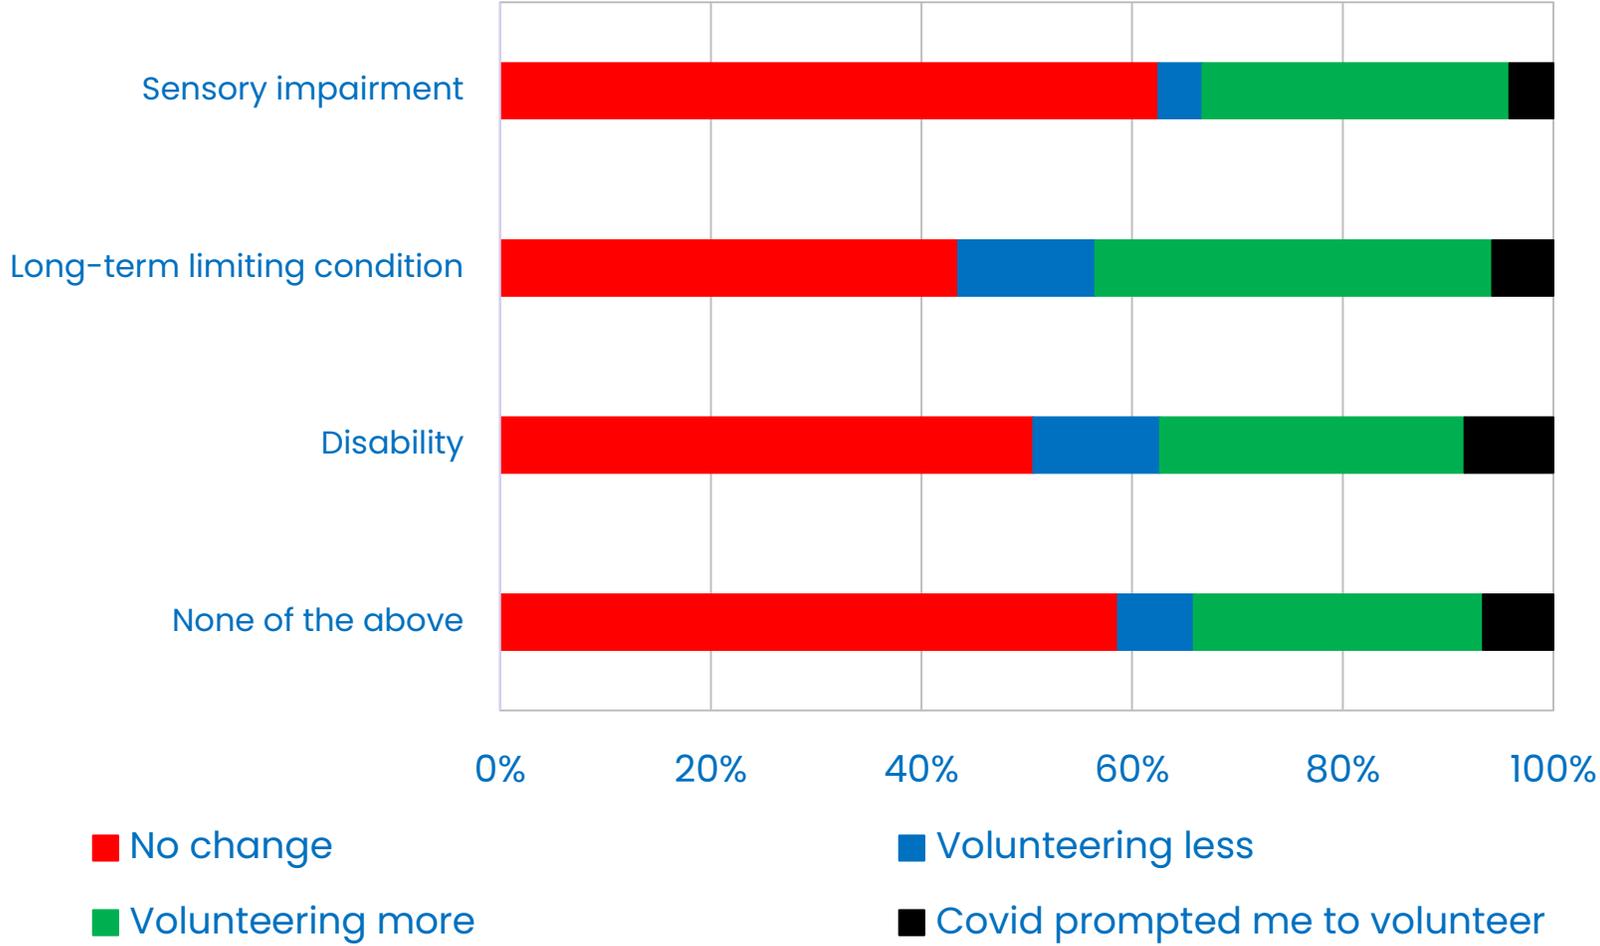

This is an increase of 7% from 2021.

The key will be to retain these volunteers.

Only 8% stated that they volunteered less.

# VOLUNTEERING ACTIVITY

### Limiting condition and Covid volunteering propensity

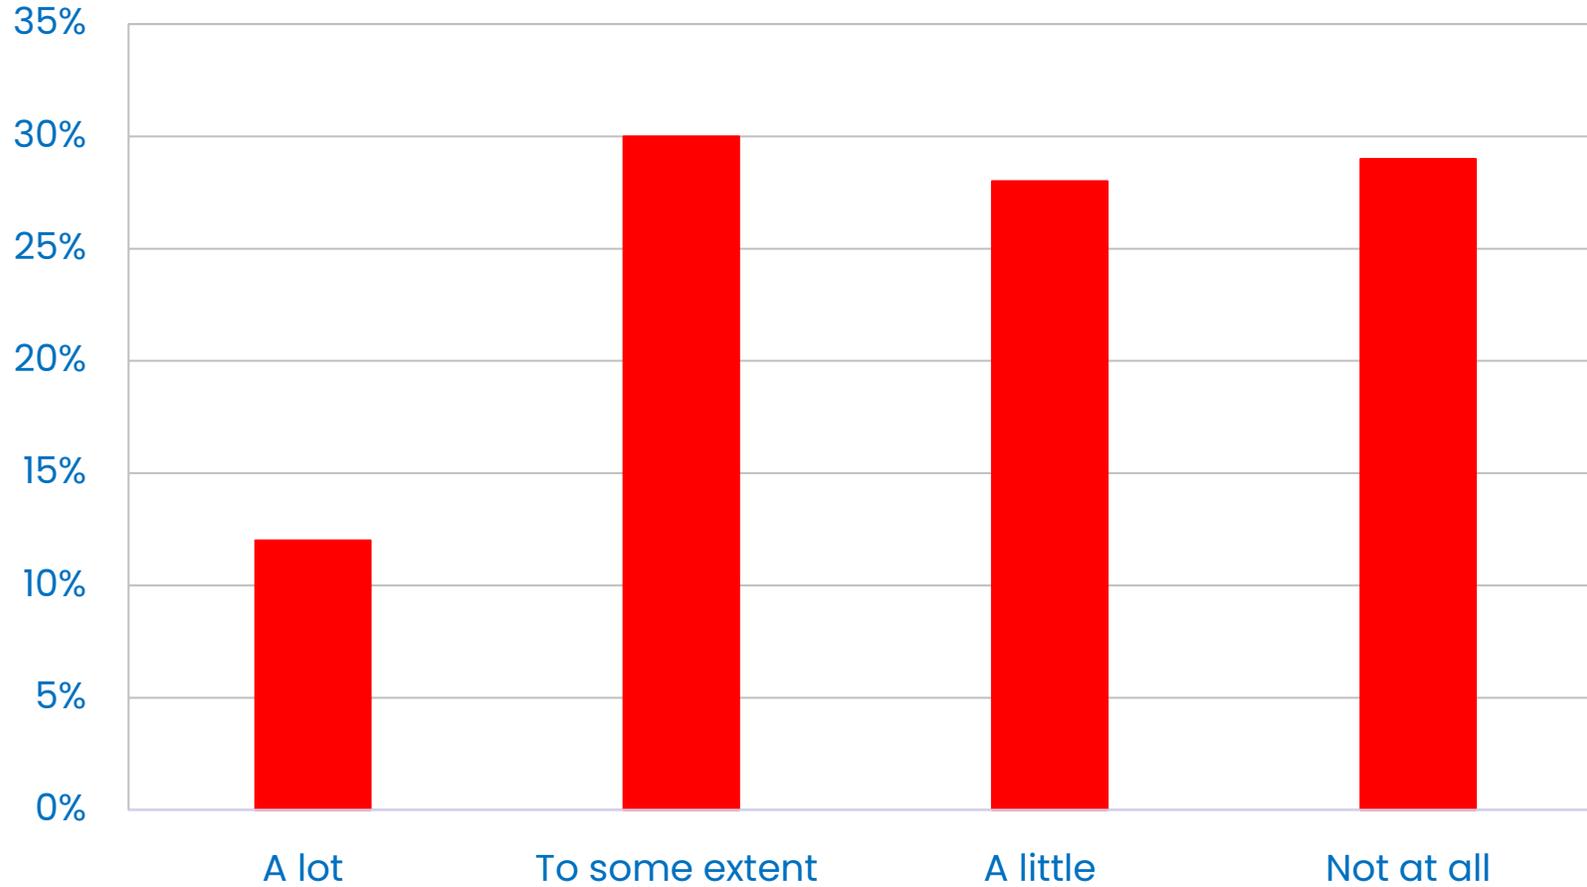

Those with a long term limiting illness are the most likely to be volunteering more.

Those with a sensory impairment are the least likely to be volunteering more.

# QUALITY OF LIFE IMPACT

## Quality of Life Impact with a limiting condition

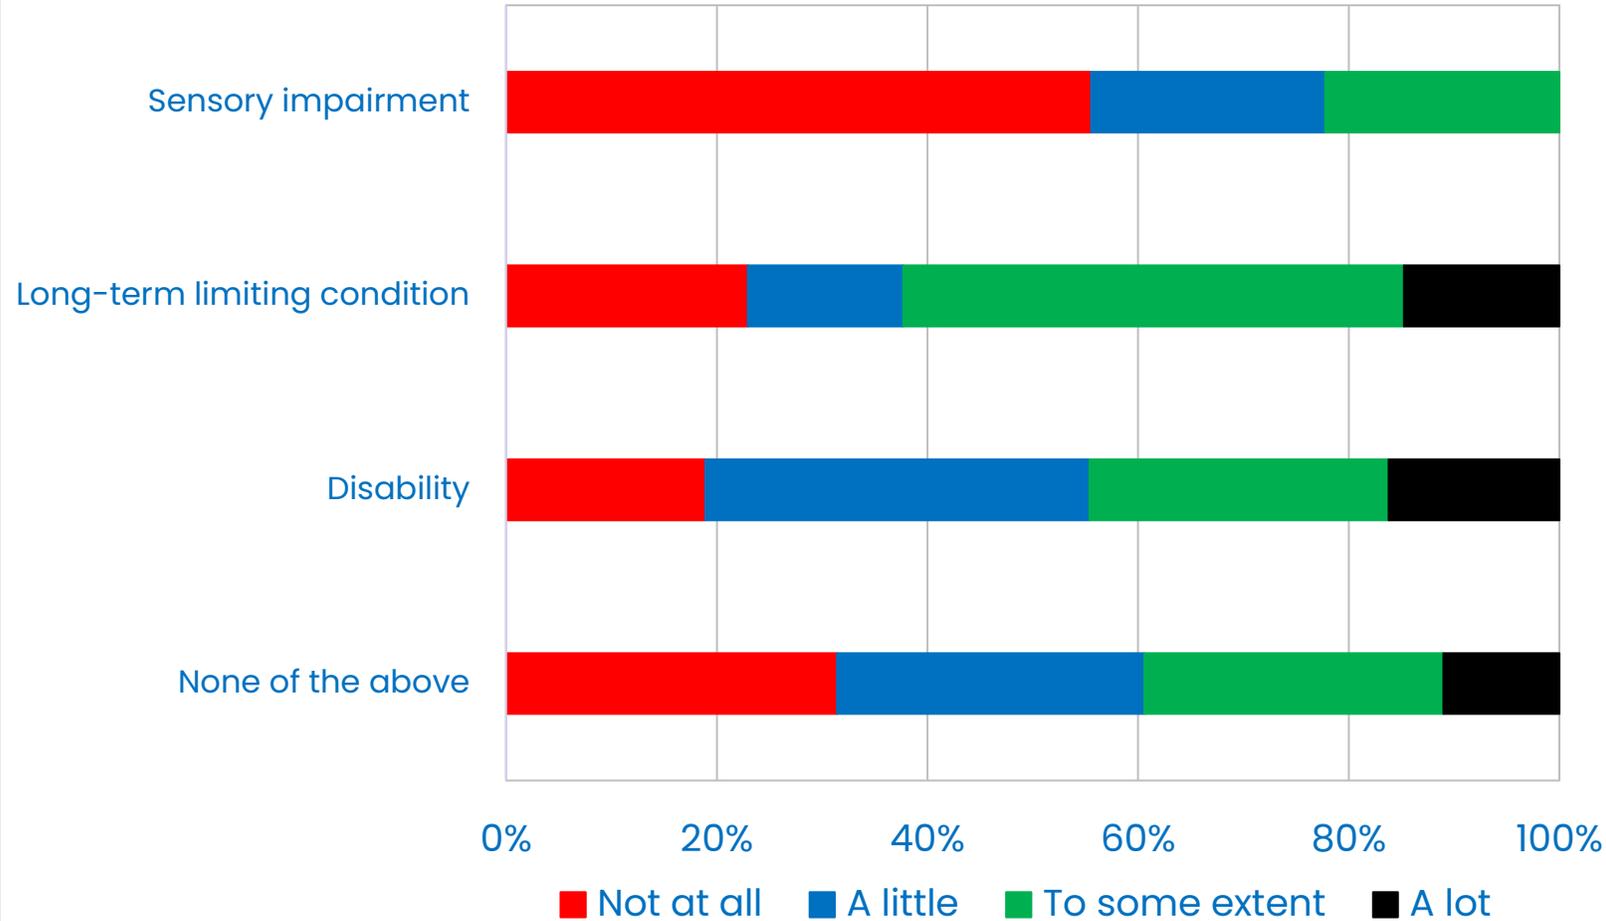

71% of Tempo volunteers with a limiting condition think that their quality of life has improved as a result of earning and using Tempo Time Credits. This is 8% higher than the figure for all respondents.

12% said that it has increased their quality of life a lot. This is the same as in 2021.

# QUALITY OF LIFE IMPACT

## Limiting Condition and Quality of Life Impact

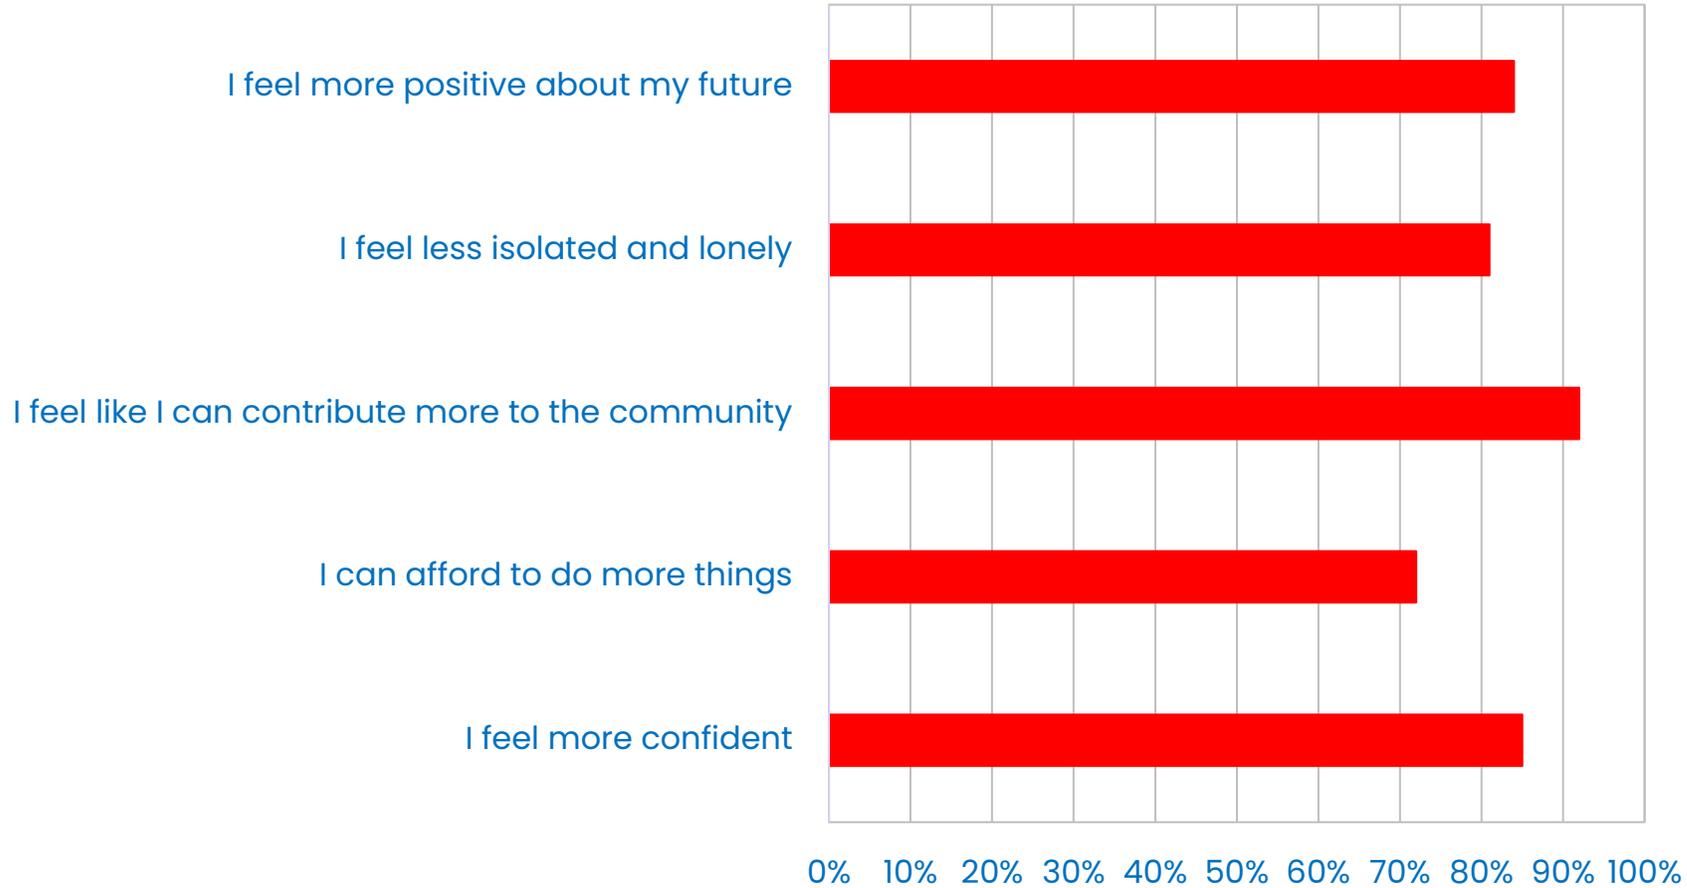

People with a long term limiting illness or a disability are more likely to consider that Time Credits had a significant impact on their quality of life.

Time Credits have the least impact on the quality of life of those with a sensory impairment (44% recognised a positive impact).

# QUALITY OF LIFE IMPACT

## Positive Impact

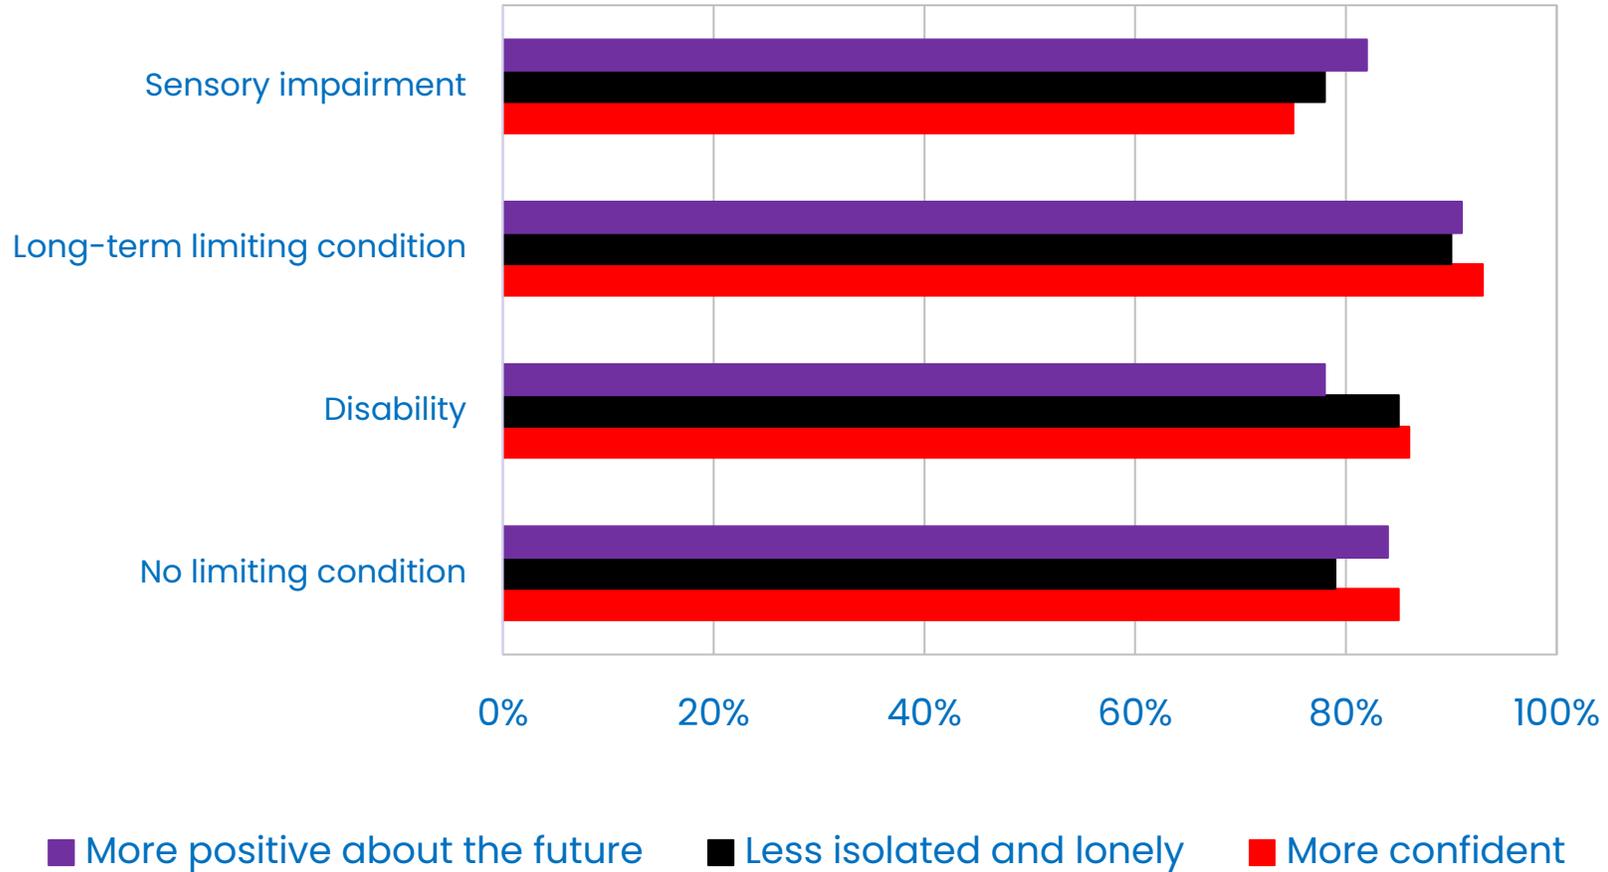

Tempo Time Credits have a positive impact in many ways, with each of these impacts scoring over 70%.

The positive impact on Tempo volunteers rose in 2022. A 10% rise in confidence is particularly positive.

The ability to contribute to the local community (a key aspect of the Tempo programme) scored over 90%.

# QUALITY OF LIFE IMPACT

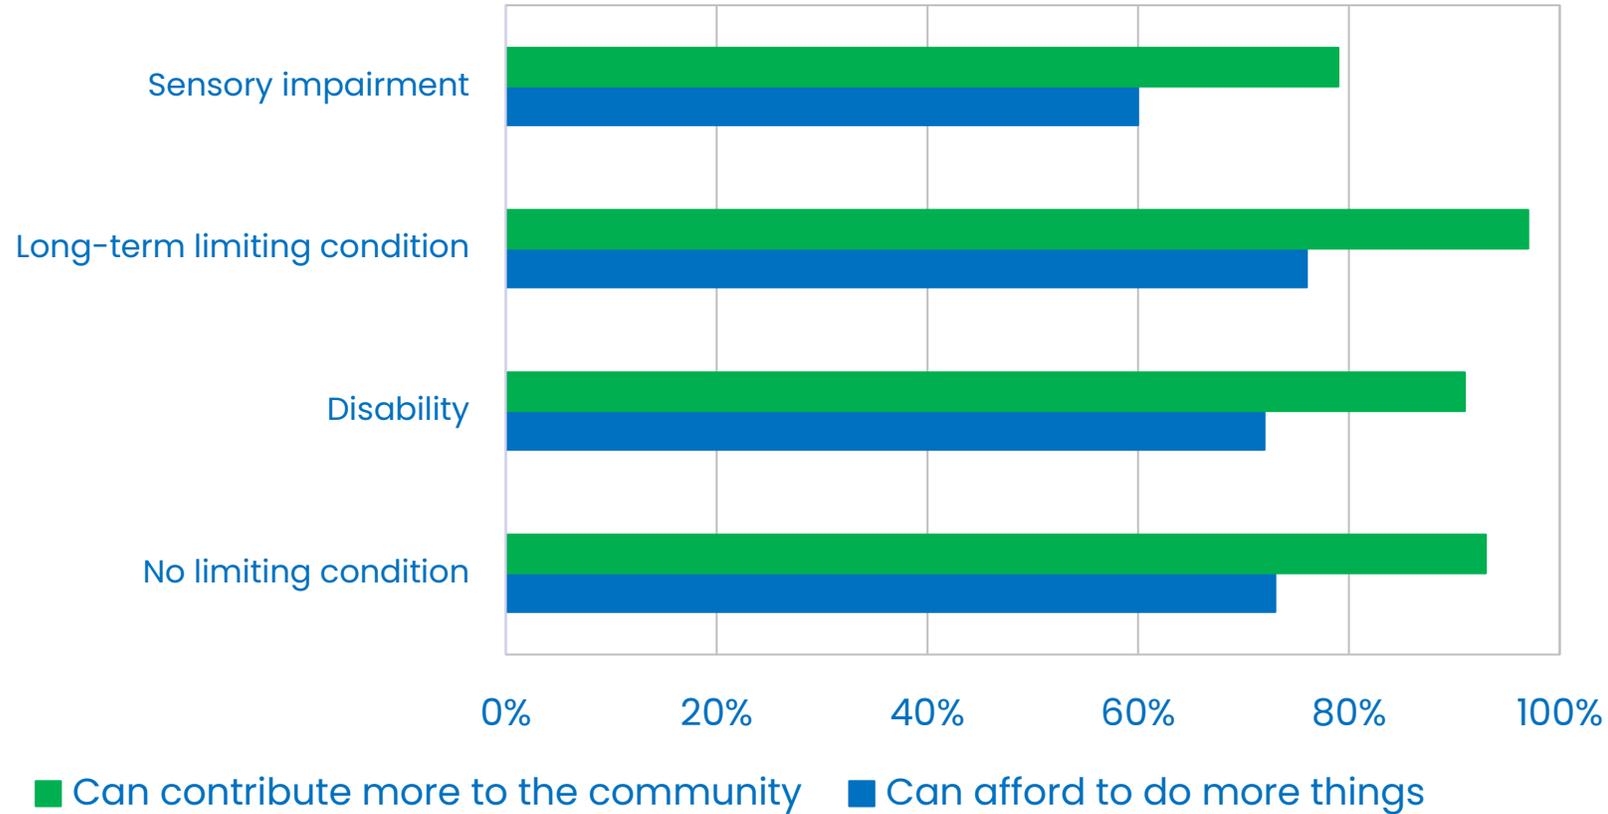

## Limiting condition and positive impact

Those with a limiting long term illness scored over 90% on each measure.

# QUALITY OF LIFE IMPACT

## Limiting condition and Positive Impact

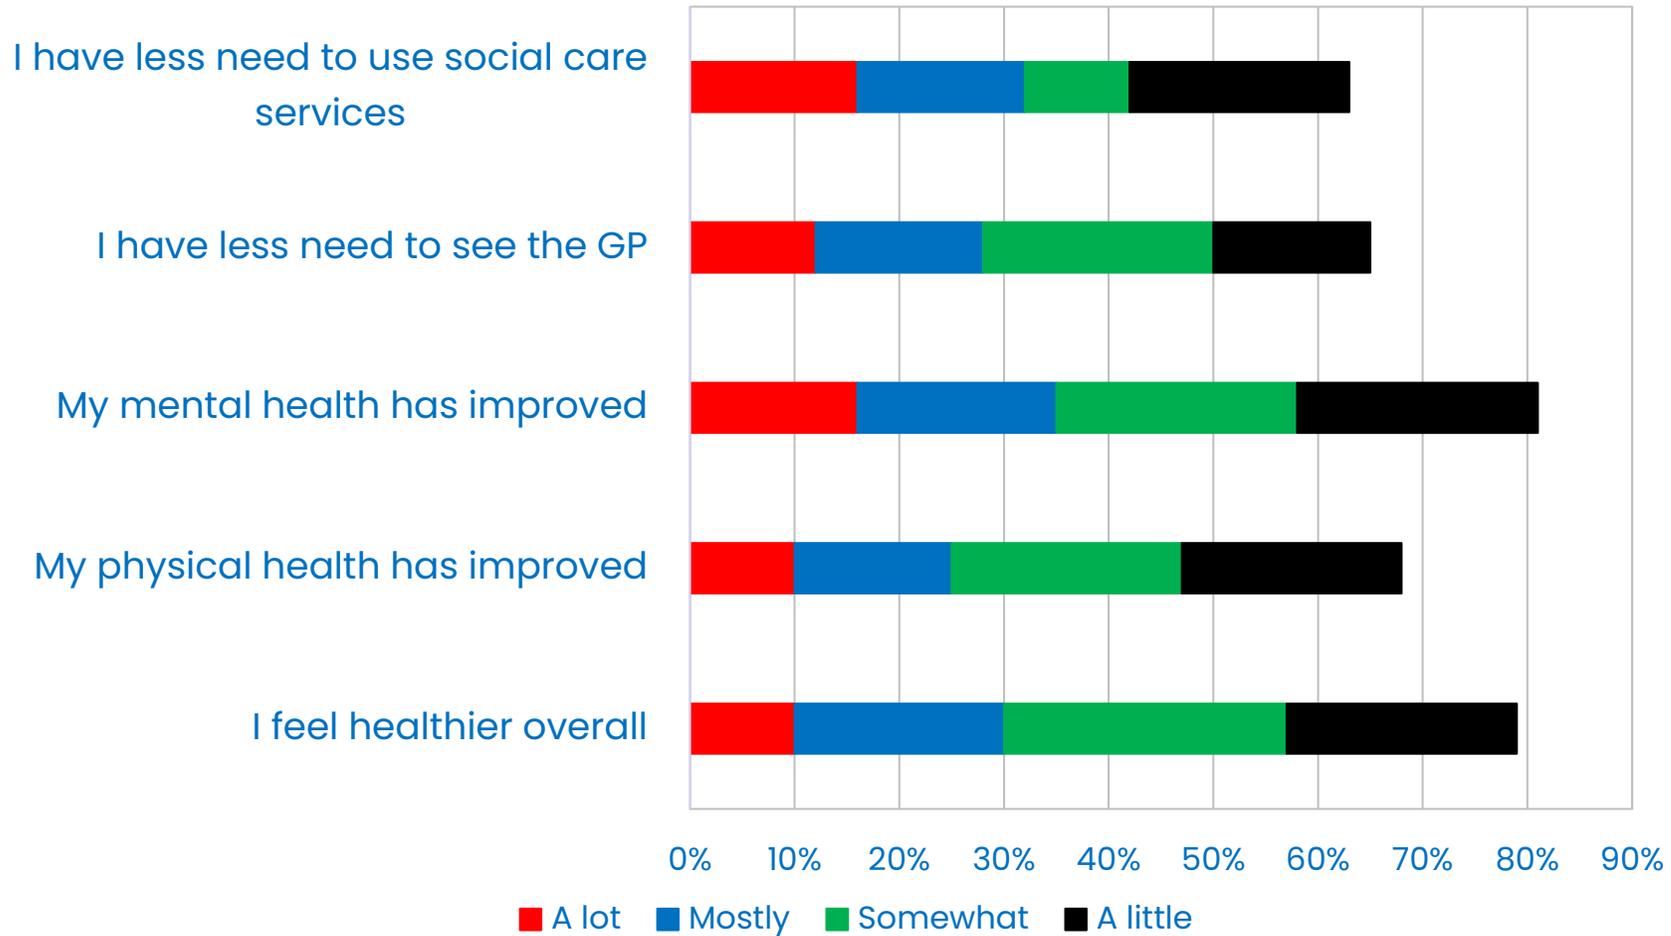

All volunteers scored community contribution at over 79%. This is one of the core aims of Tempo Time Credits: To build community engagement and resilience.

Those with a sensory impairment recorded the lowest positive impact on both measures, but both were still over 60%.

# HEALTH IMPACT

## Health Impact

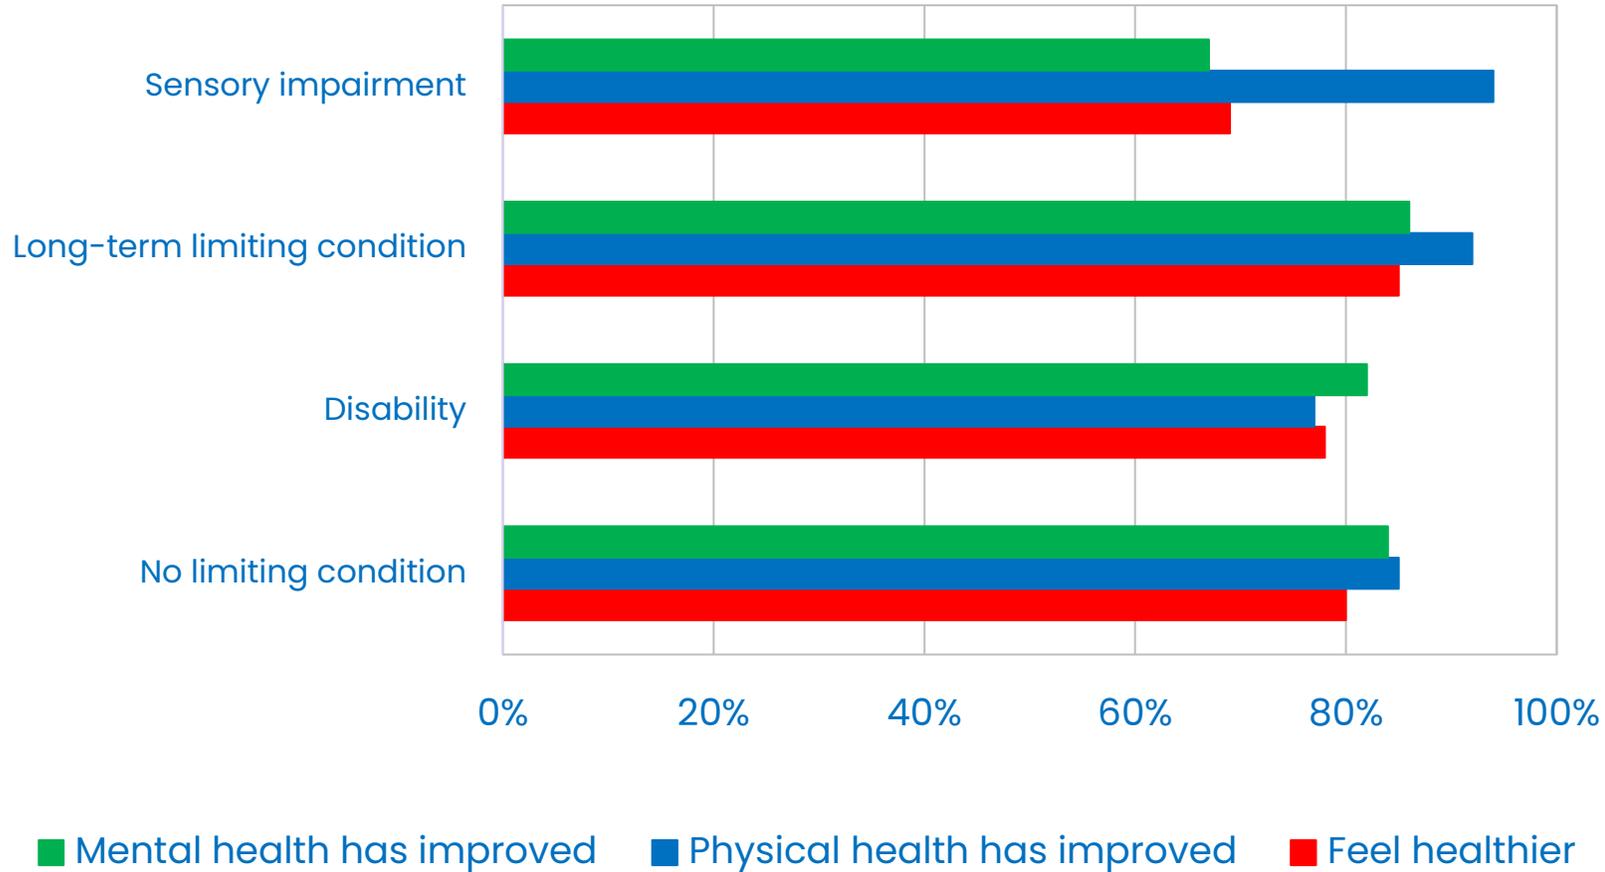

79% feel healthier.

Mental health benefits are stronger than physical health benefits.

Close to two thirds need to use their GP and social care services less. This will save these services money and reduce the pressure on service provision.

# HEALTH IMPACT

## Limiting condition and Health Impact

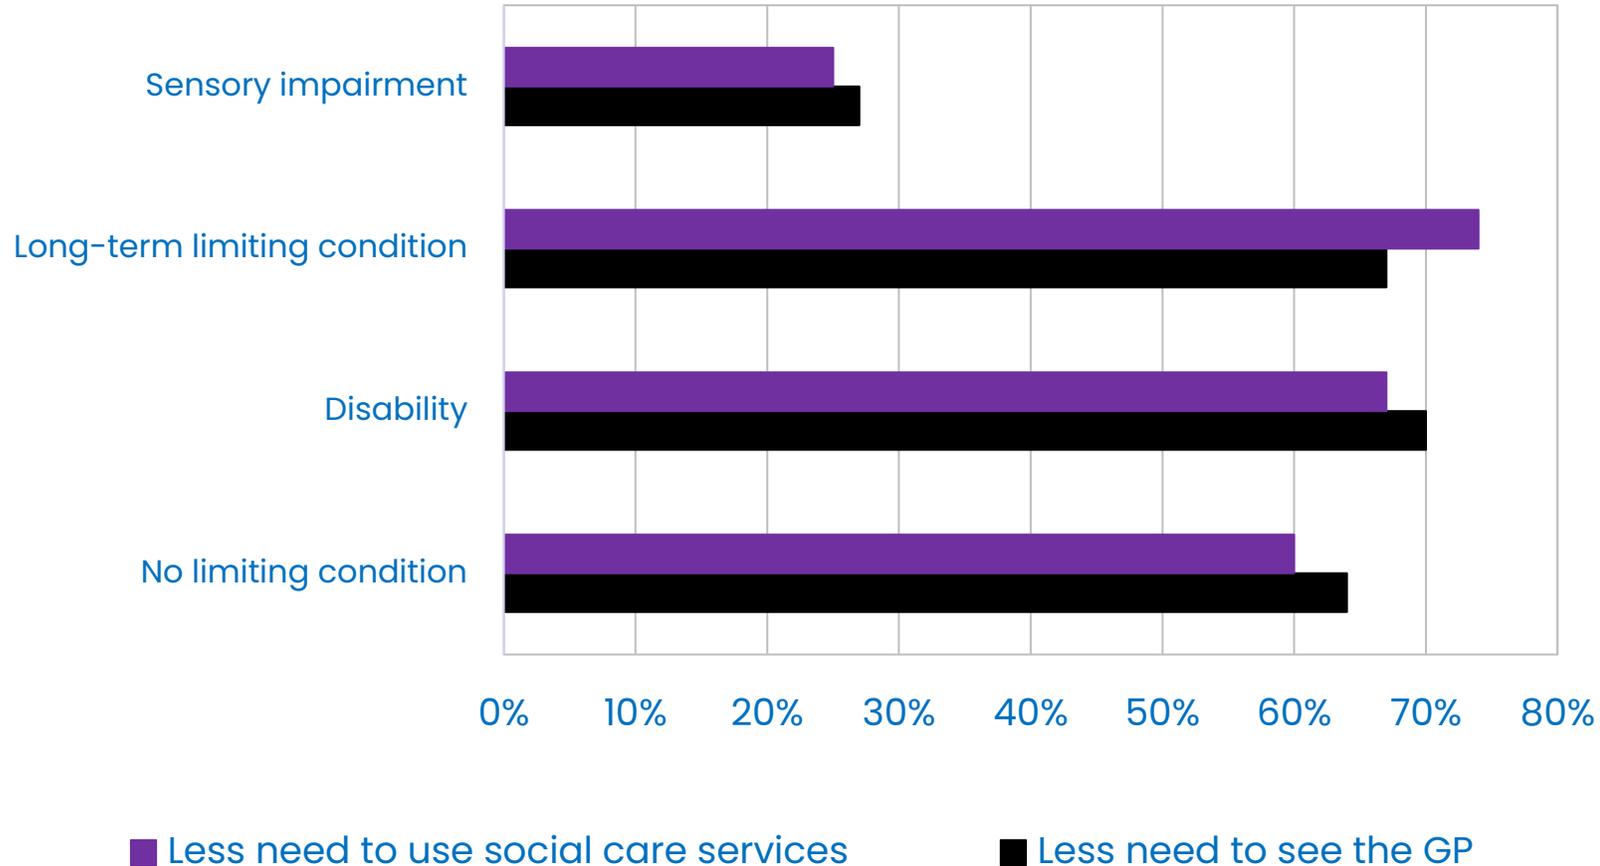

Mental health benefits are strongest among those who have a limiting long-term condition.

Physical health benefits are significantly greater (compared to mental health benefits) for those with a sensory impairment.

# HEALTH IMPACT

## Limiting condition and Health Impact

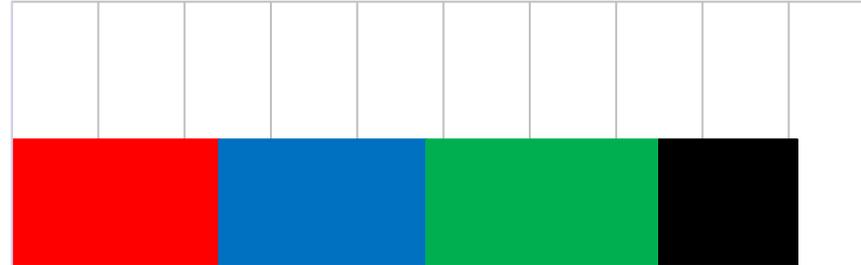

Earning Tempo Time Credits reduces the pressure on GPs and social care services by over 60%. It has a particularly beneficial impact on those with a limiting long-term condition and a disability.

There is potential for Tempo Time Credits to reduce demand on these services if used as part of a social prescribing package

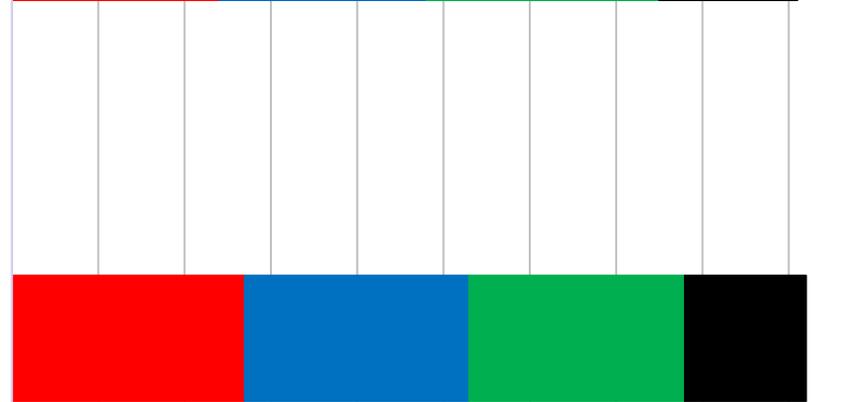

# COMMUNITY IMPACT

## Community Impact

I know more about community-based services and the support available

Feel more able to contribute to the community and other people

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

■ A lot ■ Mostly ■ Somewhat ■ A little

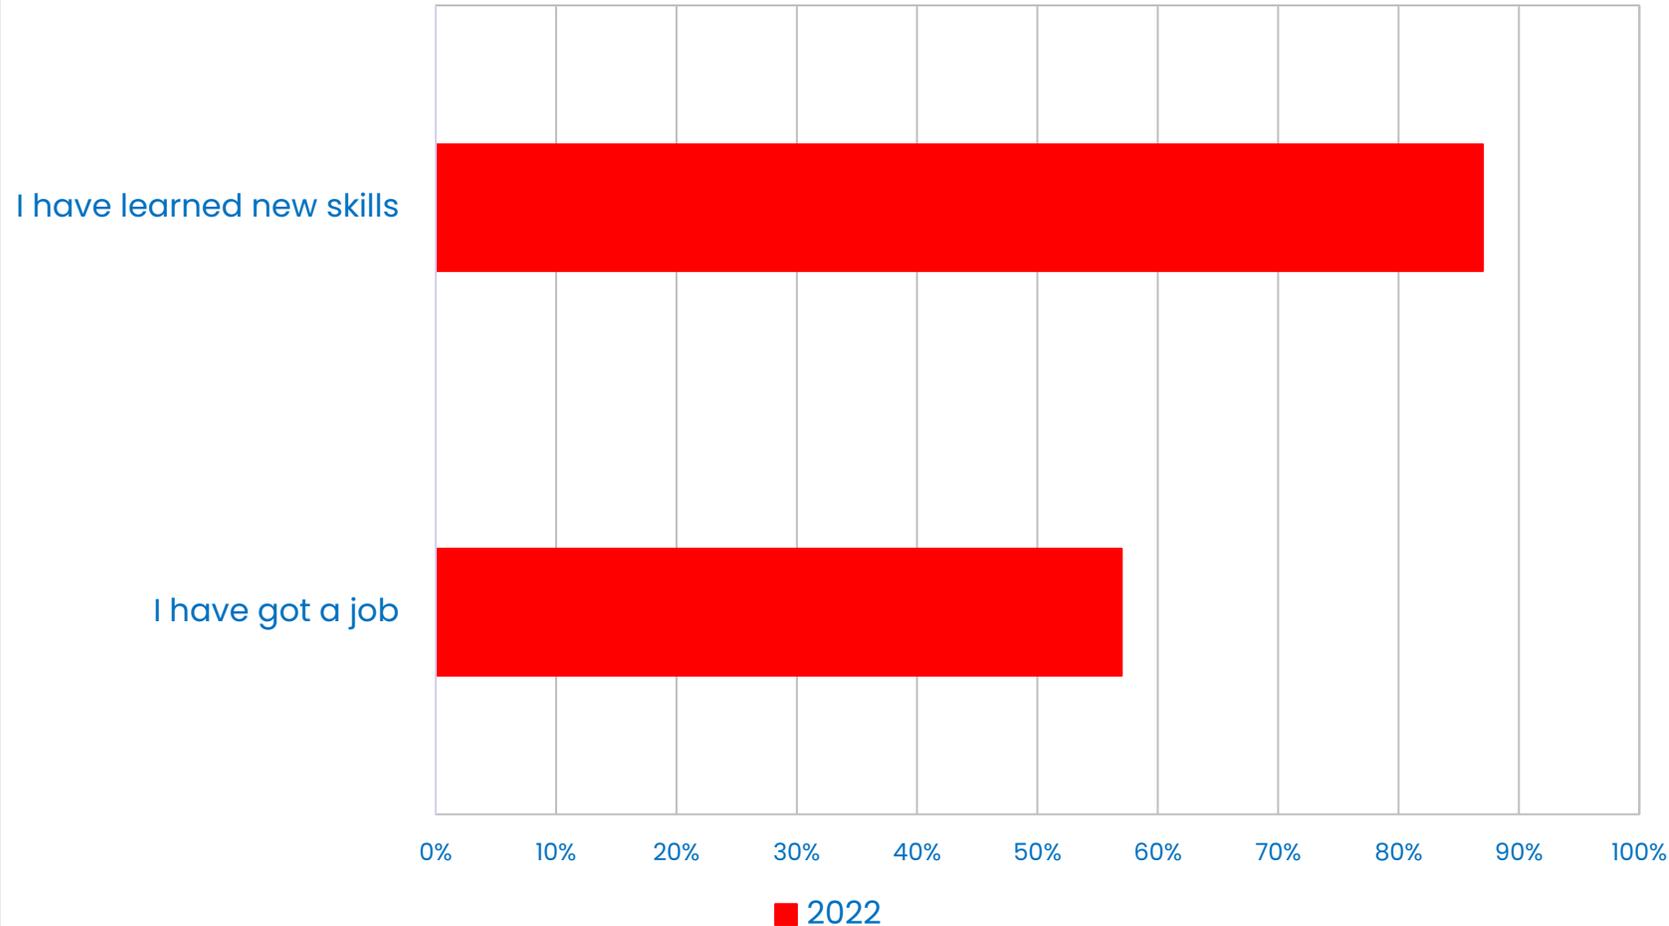

Over 90% of Tempo volunteers are more able to understand and contribute to community development.

A quarter of Tempo volunteers are able to understand and contribute to community development a lot.

This aspect of community development is a major driver of the work Tempo does.

# EMPLOYMENT IMPACT

## Employment and skills opportunities

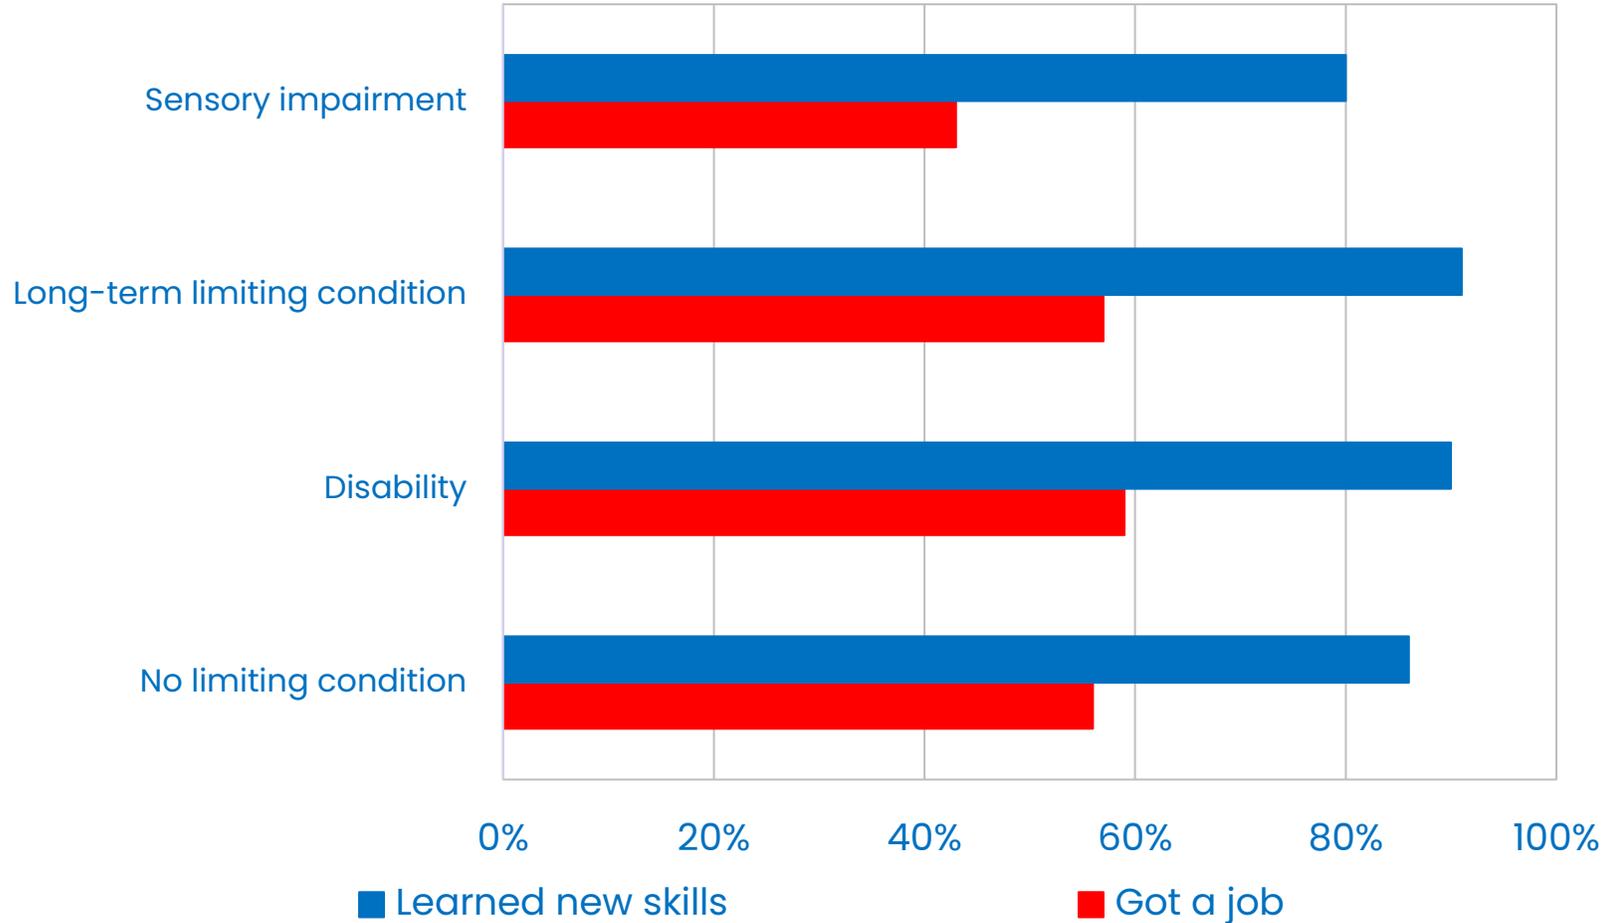

In 2022 there was a significant growth in the positive impacts on employment and training from earning Tempo Time Credits.

This is partly due to working with more organisations who are see volunteering as a pathway to employment.

# EMPLOYMENT IMPACT

## Limiting condition and Employment Impact

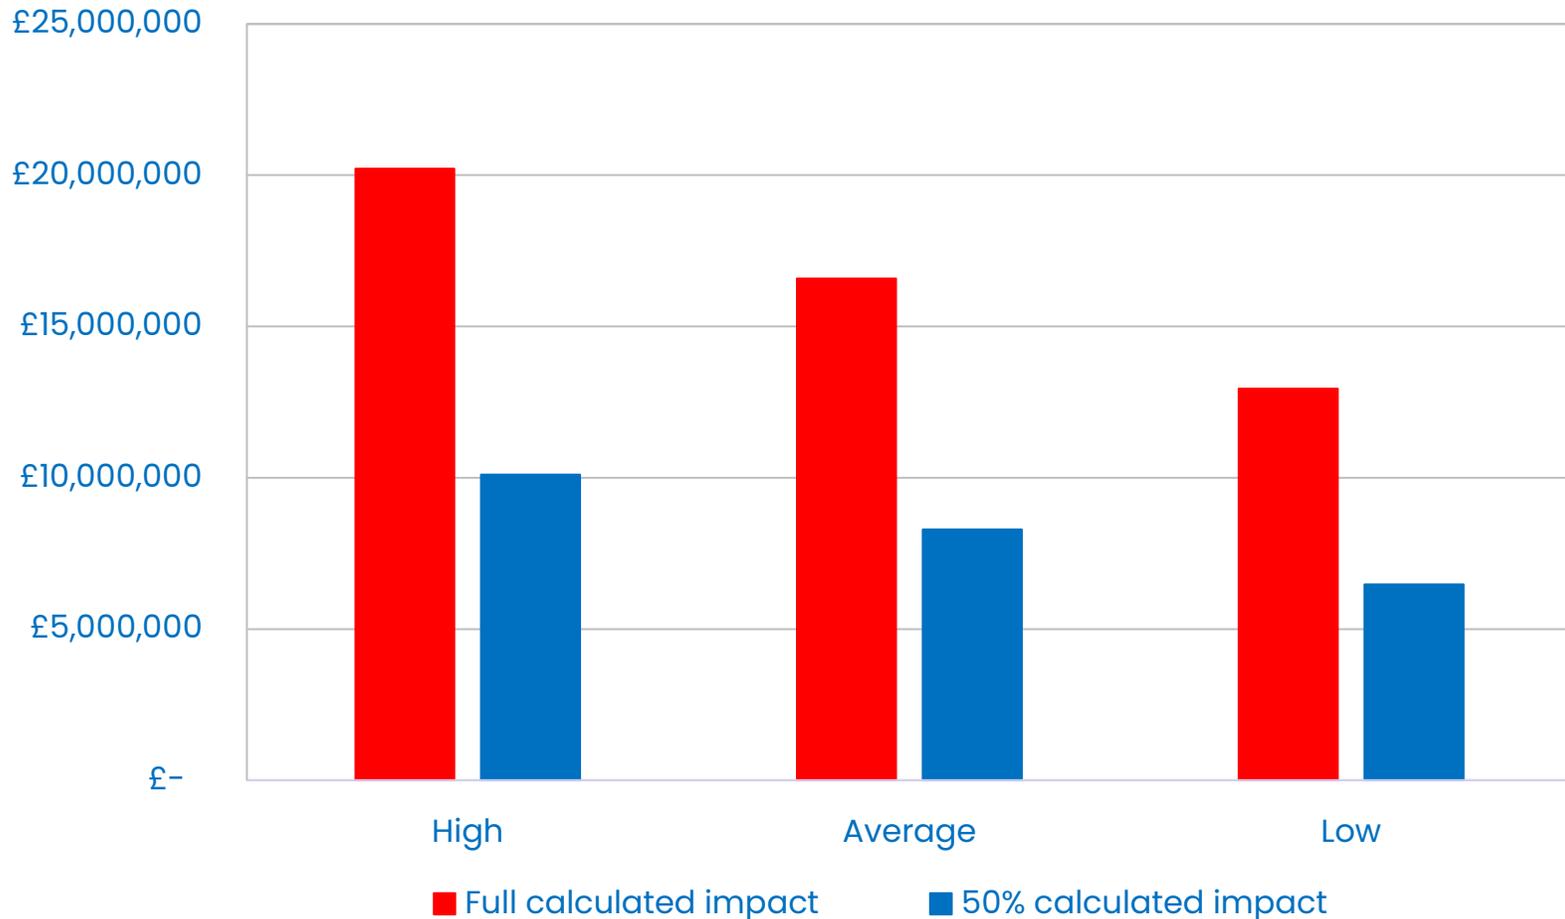

Learning new skills from volunteering takes place in over 80% of each group.

Over 40% of Tempo Time Credit earners got a job.

Volunteering is a positive benefit to people getting a job.

# IMPACT IN UK

## WELLBY Impact of Tempo Time Credits

The average Quality of Life score increased by 0.73 (6.39-7.12) between 2021 and 2022

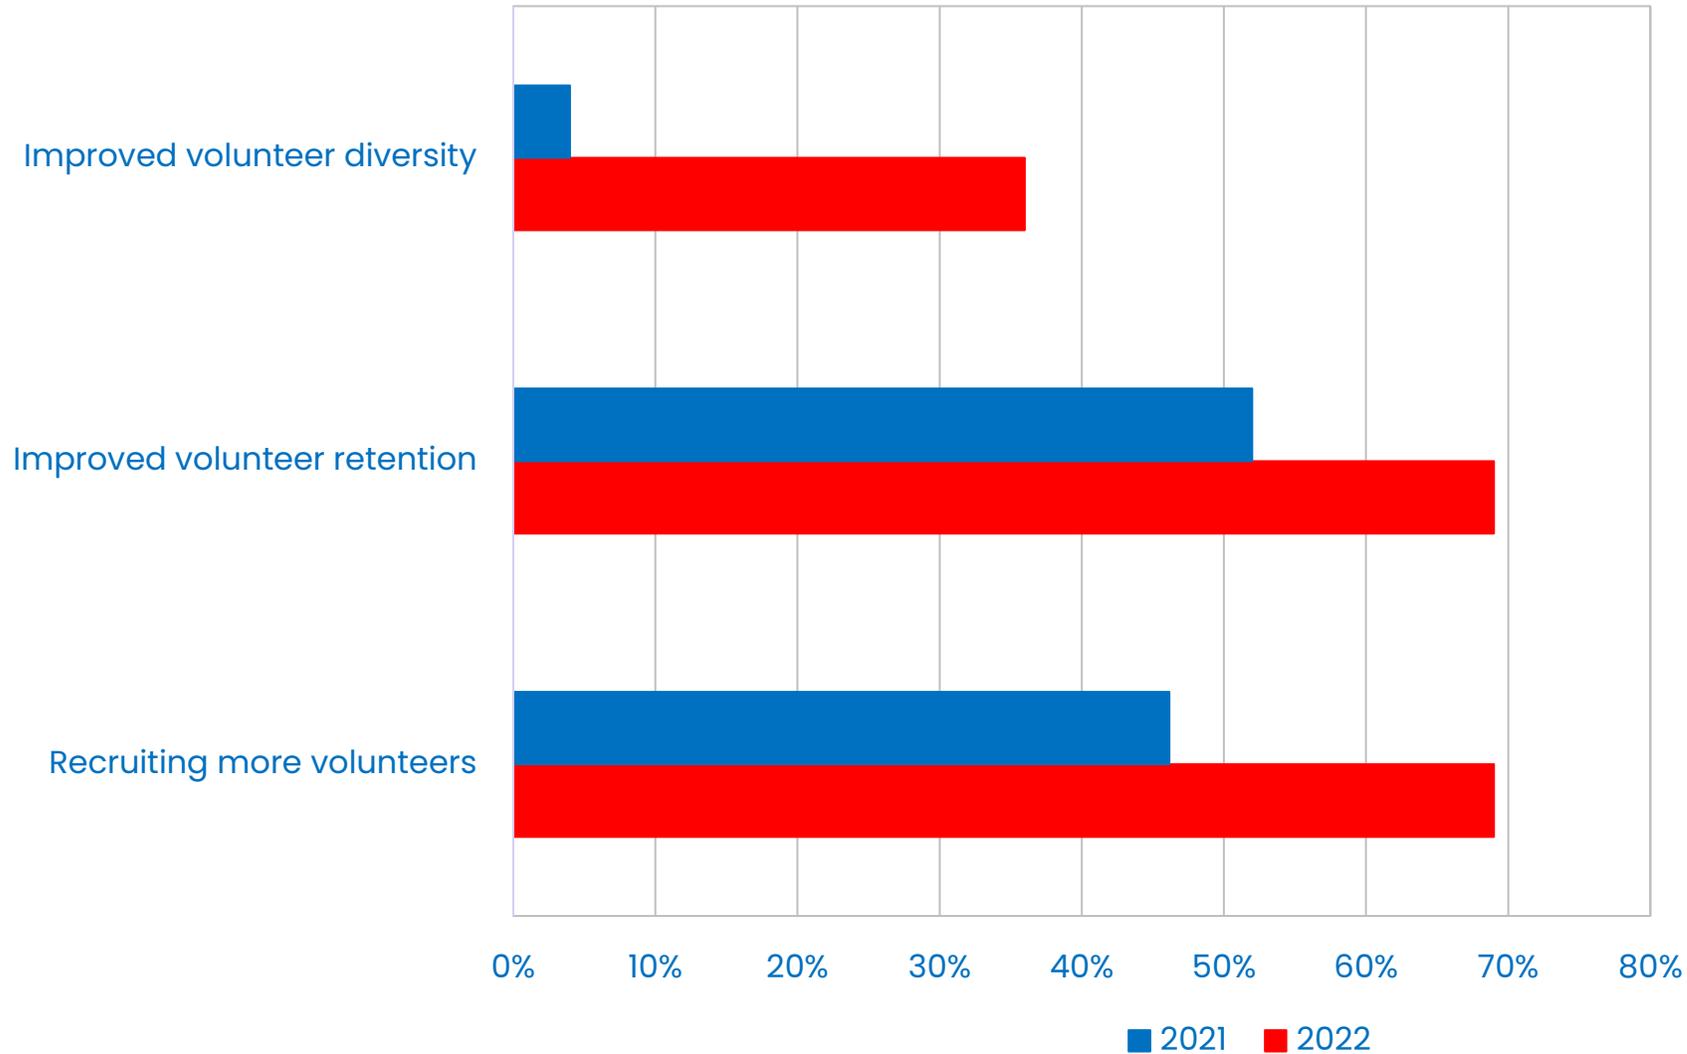

Using a recognised methodology, we estimate the impact of volunteers earning Tempo Time Credits is £101m (0.73x£12,836x10,712 volunteers) at 2019 prices.

Based on the size of the quality of life change attributable to Tempo Time Credits, we estimate the impact of Tempo Time Credits is £16.6m. (RoI 12.5:1).

We take a very cautious view and even by halving this figure the impact is £8.3m (RoI 6.3:1).

# IMPACT ON COMMUNITY ORGANISATIONS

## Making a Difference to Organisations

Community organisations on average deliver 4.6 different types of service to one or many groups in their community.

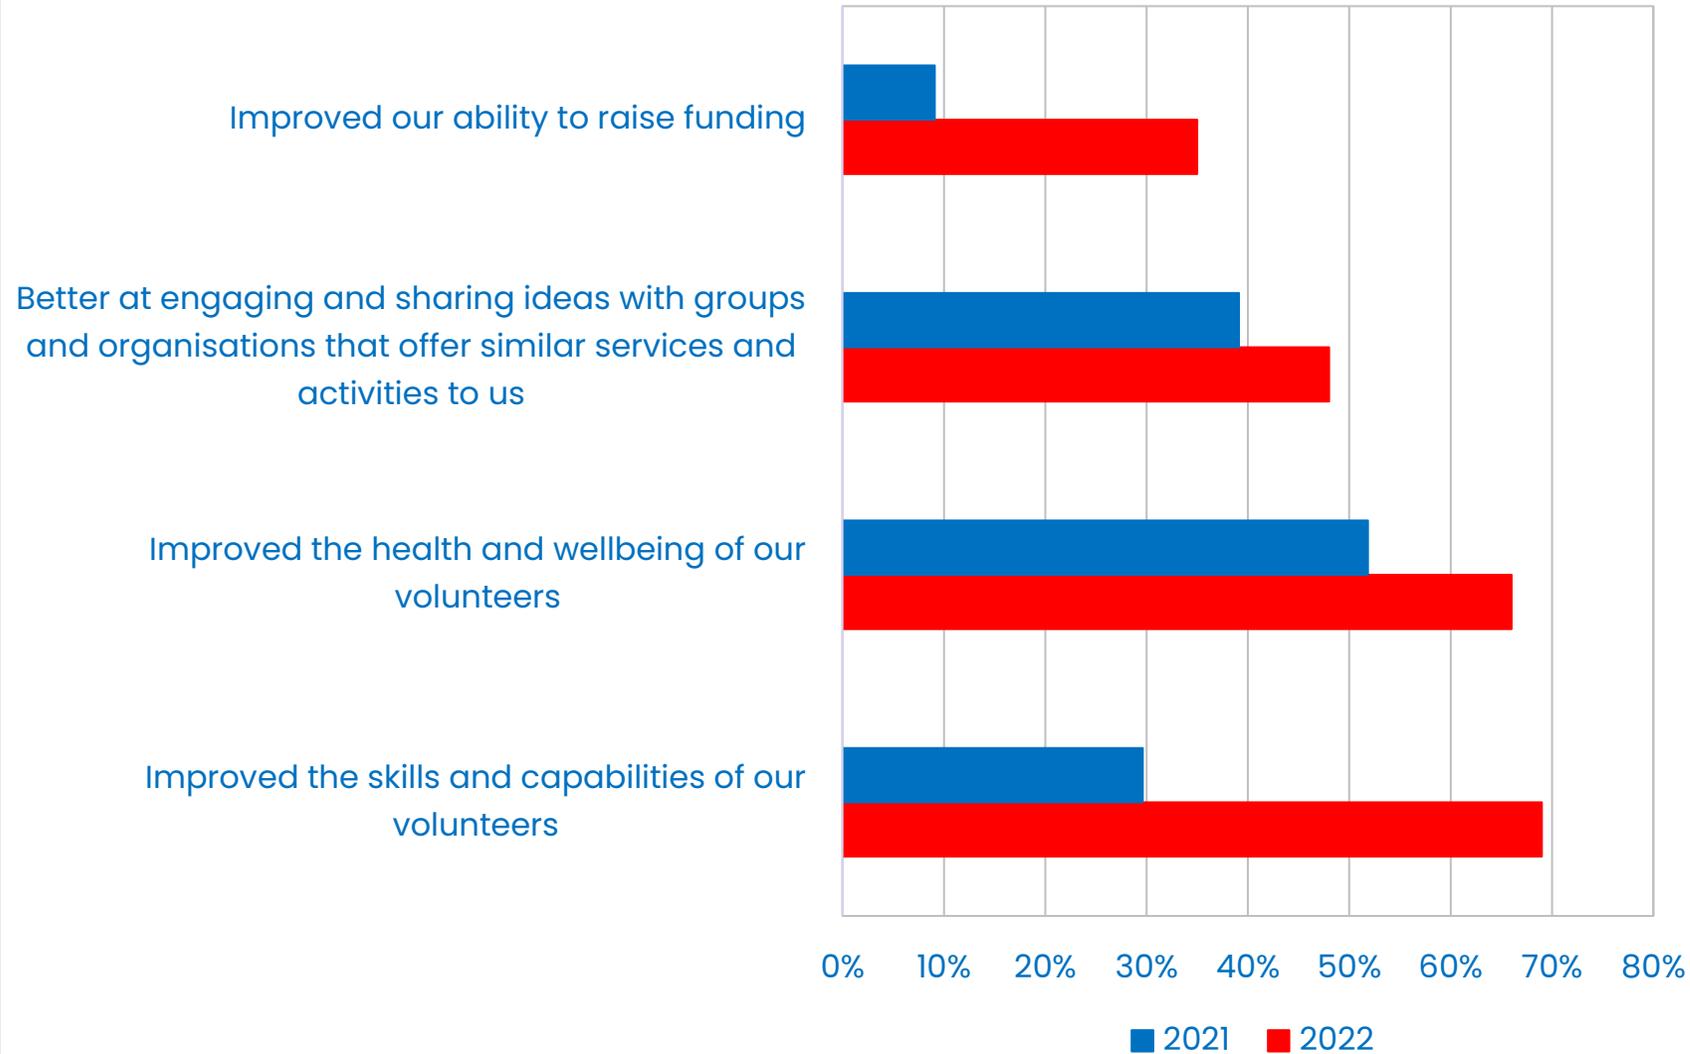

69% of organisations which use Tempo Time Credits value their ability to help recruit and retain volunteers.

It is estimated to have saved the 1,100 organisations using Tempo Time Credits £167,400 in the last year.

Tempo Time Credits help 36% of community organisations improve their volunteer diversity.

# IMPACT ON COMMUNITY ORGANISATIONS

## Making a Difference to Organisations

Over two-thirds of community organisations using Tempo Time Credits reported they improved volunteer skills and their health and wellbeing. This supports the findings of the survey of volunteers.

35% of community organisations stated that having information from the system about their volunteers helped them raise more funding.
